

PRESS RELEASE

Lumens Introduces the New DC193 and PC193 Document Cameras

Superior Image Quality for Educational, Training and Meeting Demonstrations

FREMONT, CA, Jan. 9, 2017 – Lumens™ Integration Inc. today introduced the new DC193 and PC193 document cameras. Each camera comes in Full HD, 1080p, 30fps resolution and 20x zoom capability. Both cameras come with a VGA and HDMI input/output slots. The document cameras have an internal memory for storing up to 240 images and the total memory is expandable to 4TB using a USB drive. The document cameras are applicable for presenting in educational classrooms, training courses and large and small meeting venues.

Lumens Ladibug™ app allows the use of tablets and Chromebooks with Lumens document cameras. The Ladibug software supports annotation, captures and saves images, and directly broadcasts to different cloud platforms like GoogleDrive and Dropbox. The document cameras are compatible with operating systems such as iOS, Android, Windows, Vista, and Mac OS X.

Availability:

The DC193 document camera comes in the color red. The PC193 document camera comes in the color black. The document cameras will be available in Q1 and are priced at US \$799 MSRP.
